

ERIKS PRESS RELEASE

From ERIKS North America
Date July 24th 2017
Subject Modern Distribution Management Names ERIKS North America a 2017 Top Industrial Distributor

PITTSBURGH, July 24, 2017 – ERIKS North America was recently ranked No. 20 on Modern Distribution Management’s (MDM) 2017 Top Industrial Distributors list and No. 3 on the Top Hose & Accessories list. The MDM Market Leaders lists identify the top distributors by revenue across 15 distribution sectors. Ben Mondics, President and CEO of ERIKS North America, said it’s an honor to once again be represented in MDM’s annual rankings.

“I speak for the entire ERIKS North America family when I say we take great pride in being recognized by Modern Distribution Management as one of the top industrial distributors year after year,” Mondics added. “This achievement would not be possible without the dedication of every one of our associates. Their hard work allows us to consistently provide our customers with peace of mind through high-quality, trusted products; dependable services; and technical support from our specialists.”

MDM’s annual Market Leaders lists were released in conjunction with the 2017 Distribution Trends Special Issue, which outlines distribution industry trends based on interviews with dozens of wholesaler-distributors, industry experts, and manufacturers, as well as the results from reader surveys.

Data to determine placement on the Market Leaders lists was collected from the companies, public filings, and news releases. For companies that did not provide their data, MDM estimated rankings based on past reported revenues, average revenue increases within the sectors, data from economic reports, and conversations with industry experts.
